- 5) Optionally upgradeable to 'Meeting by Vu' a Windows-10 based Video Conferencing system with 4K Camera and Wireless 4-Way Microphone which supports apps like Zoom, Skype, Microsoft Teams, Webex, G-suite.

## INSPIRATION

The Vu Masterpiece TV stands for everything we at The Vu Group believe in – sheer luxury, immaculate design & engineering and a true symbol of class and prestige. It pays homage to the great designers, avant-garde architects and master builders of our time, and can transform even a spartan space into a moving experience. The Vu Masterpiece TV is the ultimate statement for beautiful homes and offices whether the interior design concept is minimalist, mid-century modern or even contemporary luxury.

## DESIGN

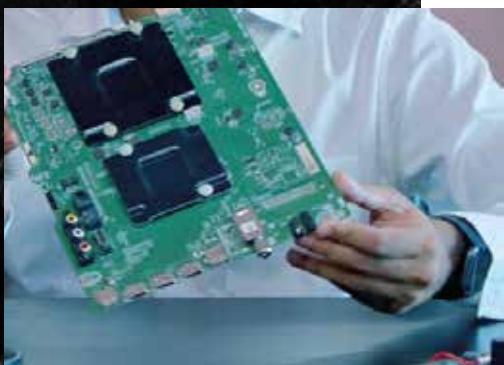

We envisioned the Vu Masterpiece TV in black and gold as these two colours are a contrast not just visually, but also thematically. Gold represents beauty and flamboyance, while black is the timeless symbol of sophistication and power. To take it a step further, we finetuned the tone of gold to give it a nuanced and subtle aesthetic.

## AESTHETICS

We call it Armani Gold, as it exudes finesse and at the same time evokes, both, the grace of rose gold and the buoyancy of champagne. View the Vu Masterpiece TV from any angle and you will find a great emphasis on stylised textures that offer a remarkable tactile experience. The sides similarly sport a diamond-cut finish, and the base features a metal mesh grill that discreetly houses a powerful soundbar.

## TECHNOLOGY

Every single Vu Masterpiece that comes out of our labs has been crafted with zero compromises and is a testament of flawless workmanship. We have innovatively used metal alloy, precision glass, CNC manufacturing and robotic assembly to create a striking bezel-less screen. The Masterpiece also features Vu's celebrated Pixelium Glass technology that enhances its brightness by optimising light reflections by 40%. All of this comes together to create the epitome of style-meets-quality, and a landmark in televisions.

# SPECIFICATIONS

## DISPLAY

Screen Size cm (inch)	215cm (85)
Model Number	85QPX
Resolution & Backlight Source	3840 x 2160, DLED Source
Panel Technology	Quantum Dot
Brightness	1000 Nits Peaking
Wide Color Gamut	Yes
Panel Refresh Rate	120Hz
Smooth Motion Rate	240Hz
Local Dimming	Full Array Local Dimming
Colour Depth	10 Bit
High Dynamic Range	Dolby Vision, HDR10+, HLG
Response Time	6ms
PC Mode & Game Mode	Yes
Gamma	Gamma Control & Calibration
1:1 Pixel mapping	Yes
